

MULTIFUNCIONAL CREATIVITY

Stud. Davide Passeri, Matteo Stella

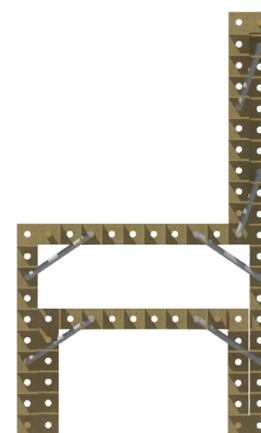

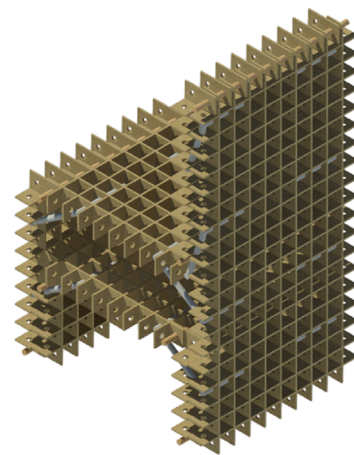

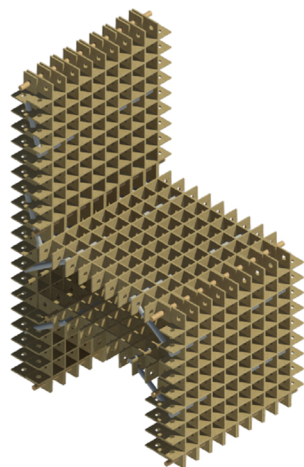

Alcune delle combinazioni possibili

Gli elementi permettono molte combinazioni diverse che si adattano alle esigenze dell'individuo.

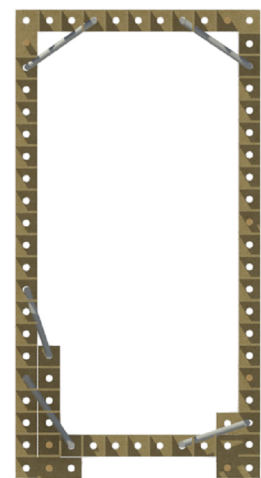

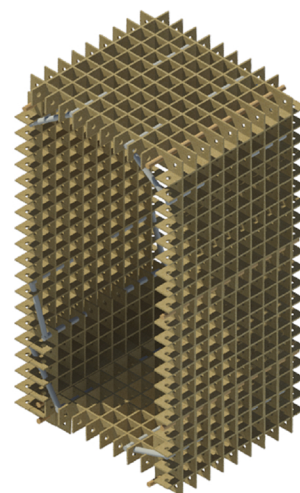

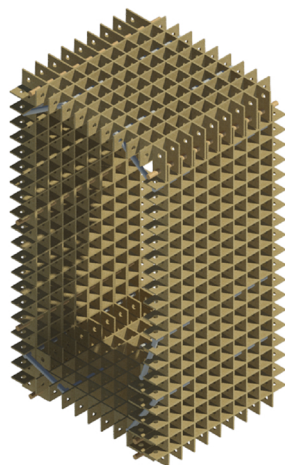

Il numero dei componenti può essere aumentato per creare oggetti più complessi e articolati, seguendo la medesima logica degli oggetti iniziali.

Di seguito vengono elencate alcune combinazioni derivanti dal nesting di base:

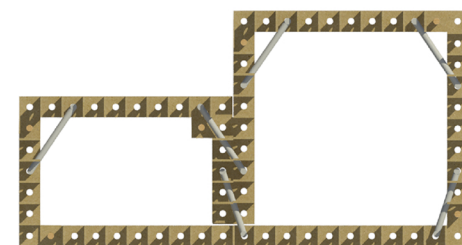

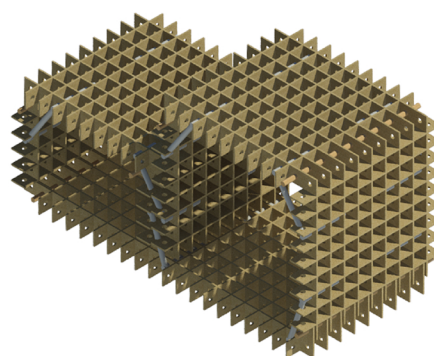

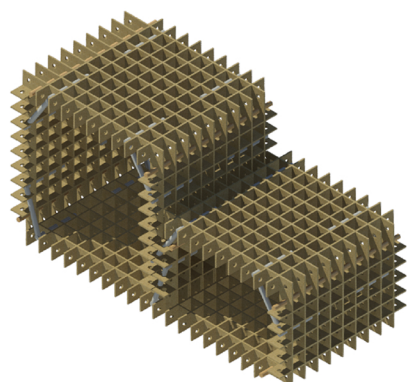

Sedia

Tavolino

Poggiapiedi

Chaise Longue
